

Shrikrishna Thodsare

iOS Developer

+91 7420005848 — shrikrishnathodsare21@gmail.com

LinkedIn — GitHub

Summary

iOS Developer with hands-on experience building mobile applications using Swift, SwiftUI, UIKit, Firebase, and REST APIs. Developed consumer-facing applications including Blink, Hire Or Fire, and CrypTrip. Experienced with MVVM architecture, App Store Connect, TestFlight distribution, and modern iOS development practices.

Technical Skills

Languages: Swift, Kotlin, Java

iOS Development: SwiftUI, UIKit, Xcode, MVVM, MVC, AVFoundation, Auto Layout

Backend & Database: Firebase Authentication, Firestore, Supabase, Core Data

Networking: REST APIs, URLSession, JSON Parsing, Alamofire, Async/Await

Tools: Git, GitHub, Postman, Figma, App Store Connect, TestFlight

Experience

iOS Developer Intern — Theze (Remote)

March 2026 – Present

- Contributing to the development of casual and mini-game applications using Swift and SwiftUI.
- Designing gameplay mechanics, animations, and interactive user experiences.
- Implementing reusable SwiftUI components and testing across multiple iPhone devices.

iOS Developer Intern — Bitcode Technologies, Pune

Nov 2025 – Jan 2026

- Developed iOS applications using Swift and SwiftUI.
- Implemented MVVM architecture and reusable UI components.
- Worked with Firebase services and REST API integration.
- Completed 11 mock assessments and practical development tasks.

Projects

Hire Or Fire – Interview Preparation Platform

SwiftUI, Firebase, REST APIs

- Developed an interview preparation and recruitment simulation platform for iOS.
- Integrated Firebase Authentication and Firestore for secure user management.
- Built reusable SwiftUI views following MVVM architecture.
- Connected REST APIs to deliver dynamic content and personalized experiences.

Blink – Horror Survival Game

SwiftUI, AVFoundation, App Store Connect

- Developed a horror-themed iOS game focused on immersive gameplay and suspense-driven mechanics.
- Designed and implemented 15+ game screens and reusable SwiftUI components.
- Integrated audio effects, animations, and event-driven gameplay systems.
- Managed TestFlight distribution and App Store submission workflows.

CrypTrip – Cryptocurrency Tracking Application

UIKit, URLSession, REST APIs

- Developed a cryptocurrency market tracking application using UIKit.
- Integrated public APIs to display real-time cryptocurrency prices and market data.
- Implemented asynchronous networking using URLSession and JSON parsing.

Education

Bachelor of Technology (Computer Science & Technology)

2025

Dr. Babasaheb Ambedkar Technological University

CGPA: 7.2 / 10
